- **M2** Encouraging students to develop innovative learning throughout life.
- **M3** Grooming girl students to be a successful professional in health care sector to serve the community by providing excellent practical knowledge and by upgradation of library with competent environment during their stay in the college.

ABOUT FDP

The FDP on **"Policy to Practice: Transforming Pharmacy Education"** is designed to bridge the gap between educational policies, regulatory frameworks and their effective implementation in pharmacy education. The programme aims to create awareness among pharmacy faculty members about the latest developments in pharmacy education, national education policies, regulatory guidelines, curriculum reforms, competency-based learning and emerging trends in pharmaceutical sciences.

The FDP provides a platform for academicians, researchers and pharmacy professionals to share knowledge, exchange innovative teaching practices and discuss strategies for improving the quality of pharmacy education. It emphasizes translating policies into practical teaching, learning, research and assessment methodologies to prepare competent, skilled, ethical and industry-ready pharmacy graduates.

OBJECTIVES OF THE FDP

The major objectives of the Faculty Development Programme are:

01 **Understanding Educational Policies**
To create awareness about the National Education Policy (NEP 2020), Pharmacy Council of India (PCI) regulations and other relevant educational policies.

02 **Bridging Policy and Practice**
To facilitate the effective implementation of educational policies and regulatory guidelines in pharmacy institutions.

03 **Outcome-Based Education**
To strengthen faculty understanding of outcome-based education (OBE), competency-based learning and outcome-based assessment methods.

04 **Innovative Teaching Methodologies**
To promote student-centric teaching strategies, experiential learning, problem-based learning, case-based learning and digital teaching tools.

05 **Future-Ready Pharmacy Education**
To prepare pharmacy educators to address emerging challenges and opportunities in pharmaceutical sciences, healthcare, technology and professional practice.

EXPECTED OUTCOMES

At the end of the FDP, participants will be able to:

- Understand the current policies and regulatory frameworks governing pharmacy education.
- Translate educational policies into effective institutional and classroom practices.
- Adopt innovative and student-centric teaching and assessment strategies.
- Design competency-based and outcome-oriented learning activities.
- Contribute towards improving the quality, relevance and global competitiveness of pharmacy education.
