PHYSICAL FACILITIES

1. The institution has adequate facilities for teaching - learning. viz., classrooms, laboratories, computing equipment, etc

RBVRR Women's College of Pharmacy gives utmost priority to provide adequate facilities of teaching-learning process. Since its inception the institute has strived constantly to maintain high standards of infrastructure to match the needs of industry and the regulatory authorities. The facilities such as laboratory equipment, buildings and learning resources of the institution are being developed with a vision to aid the teaching learning process effectively and contribute significantly towards improving the academic excellence. The institute is being continuously monitored and enhanced with inputs from stakeholders such as faculty, changes in syllabus, and intake.

Classrooms and other facilities:

The College has sufficient number of spacious class rooms with required seating arrangement for conducting classes and tutorials. The classrooms are airy with adequate lighting and spacious seating facility, provided with ICT based pedagogical tools (LCD projectors, Wi-Fi).

The College has a seminar hall of 250 capacity with air conditioners to conduct seminars, guest lectures, conferences and workshops. Our college is also one of the examination centers under Osmania University to conduct end semester exams.

The college has a Committee hall with a capacity of 40 members with air conditioners, LCD facility for conducting Board meetings and Staff meetings. The above amenities proved that the college is functioning with excellent ambience for teaching- learning process.

Laboratories:

Laboratories are well equipped with required equipment and all utilities such as gas pipes, water connection, standard taps, sinks, proper drainage, fuming cupboards, exhaust fans etc to conduct experiments as per the curriculum and also beyond the curriculum. The college encourages students to use the sophisticated equipment like FT- IR, UV spectrophotometer, HPLC etc under the supervision of laboratory staff. Teaching Staff provide demonstration of the same in batches to students. Laboratories are also equipped to carry out in-house mini projects and final year projects (both UG and PG). Each laboratory has safety measurements such as fire extinguishers and First Aid kits. SOP's and laboratory manuals are maintained and updated.

www.rbvrrwcp.org | Email: rbvrrwcoph@rediffmail.com & rbvrrwcp2006@gmail.com

Computing equipment:

The institute has excellent computing facilities and has over 75 desktops and 3no's internet connections to cater the needs of all the departments, office, library and students.

Library:

Library plays a pivotal role in teaching-learning process and has 7926 books and collection of e-journals. It has a built-up area of 171.99 sq.m.

Digital Library:

The college is equipped with digital library facility, having subscription for k-hub.in and delnet.in. These virtual libraries offer a comprehensive compilation of databases covering e-journals, e-books, e-articles, e-newspaper, e-newsletter, case reports, videos online sample issues, article submission for authors.

Medicinal Garden

The college is maintaining the medicinal plant garden which includes several types of herbs, xerophytes and shrubs. The garden is located in the campus of the college. The medicinal garden is managed by gardener under the supervision of a senior faculty. The house keeping people and gardener takes care of watering, cleaning and providing the pesticides from time to time. There are about 55 varieties of medicinal plants maintained in our garden. The plantation has made appropriately under the shade of demarcated areas. All the plants are provided with name plates containing vernacular and botanical names.

Drug Information centre

The college has drug information room to counsel the patients and the general public in and around the college premises in pace with escalating needs of our profession. It serves the need of educating the public & keeping them abreast with latest technology, like telemedicine, alternative medicine, measures to take to assess the medication.

Animal House

The college has CPCSEA approved animal house facility to study the biological activity of synthesized compounds and newly developed formulations.

Security:

Security personnel are appointed for providing 24 X 7 safety and security in the campus.

CCTV cameras:

They are installed at everywhere within the campus for augmenting the safety.

Hostel facility:

The Hostel facility is provided for students in the main campus nearby to the college being taken care of by resident warden.

Medical Facilities:

Sick room and first aid room of area is available in the college with first aid facilities and weekly physician visit to take care of health facilities of staff.

Examination cell:

An examination cell was established serving all functions relating to conduct of internal and external examinations, alerting students regarding exam notifications, fee payment etc.

Canteen:

Canteen is a place where everyone i.e. students, teachers and other staff members can relax in a comfortable atmosphere & discuss issues on different matters. The college canteen is much more than merely an eating place. The college has provided canteen facility with a built up area of 99.96sqm

It is managed by a professional contractor, supervised by canteen committee. The committee regularly monitors the hygienicity of food, purity of water cleanliness of the canteen.

Alumni cell

In order to strengthen the network of alumni and the present students, an alumni cell was established, administered by two faculty members and students members.

Canteen:

The College Canteen has been functioning efficiently. The canteen is located inside the College. The hostellers and day scholars are provided with meals by assuring food safety and quality.

Greenery:

The Institution is a Green audited campus with sprawling green cover enveloped with all types of medicinal garden, solar powered campus, rain water harvesting structure and other conservation methods.

Solar Panels:

Roof top Solar Panels are fixed on the institute building which delivers power during load shedding, ensuring that critical loads are always running energy.
