REPORT:-

DATE:-5 June 2023

World Environment Day 2023 was a reminder that people's actions on plastic pollution matters. The steps governments and businesses are taking to tackle plastic pollution are the consequence of this action. The theme for World Environment Day on 5 June 2023 focussed on solutions to plastic pollution under the campaign Beat Plastic Pollution.

On this RBVRRWCP conducted painting competitions with the year's theme, in which 7 students participated and winners were awarded with prizes. JAM competition was also conducted in which 7 Pharm D students participated. Of the participants HadiyaMahveen won 1st prize for her delivery skills within limited time.

Report:- World drug day

Date:-26/6/2023

The world drug problem is a complex issue that affects millions of people worldwide. Many people who use drugs face stigma and discrimination, which can further harm their physical and mental health and prevent them from accessing the help they need. World Drug Day, is marked on 26 June every year to strengthen action and cooperation in achieving a world free of drug abuse. The aim of this year's campaign is to raise awareness about the importance of treating people who use drugs with respect and empathy; providing evidence-based, voluntary services for all; offering alternatives to punishment; prioritizing prevention; and leading with compassion. The campaign also aims to combat stigma and discrimination against people who use drugs by promoting language and attitudes that are respectful and non-judgmental. RBVRR NSS students approximately 50 in number performed campaign to bring awareness regarding drug abuse and illicit drug trafficking by displaying placards with various slogans harnessing the human health because of illicit drug trafficking. The campaign was conducted from RBVRR Women's college of Pharmacy to Barkathpurachaman, Barkathpura X roads, via narayanaguda X roads to college campus.

Due to an immense increase in the number of vehicles that zoom across the roads in Telangana, the roads of Telangana have recorded a large number of deaths due to road accidents. In its effort to create awareness about traffic safety, Community Policing, the Hyderabad Traffic Police conducted a seminar on Traffic Awareness at RBVRR WCP on 23rd December, 2022.

It was a wonderful experience for the students of RBVRR WCP as they were attuned with the Traffic Rules to be followed. The Awareness session was taken by the Traffic Training Institute ACP G. Shanker, Narayanguda PS Sub-inspector of Police Naga Rani & Sub-inspector Mohan Babu .Narayanguda PS Sub-inspector of Police Naga Rani addressed the young students, and explained about the need of awareness among the students and role they can play in reducing the number of accidents caused on roads. She also spoke about the Community Policing, which is all about providing security and help to the people at their door steps. She made it clear that people do not even need to go to the police station to report an incident. Their service to the community would be prompt and just a call away.

Later, Traffic Training Institute ACP G. Shankar, presented before the students the set of traffic rules that people need to follow and maintain while driving. It was a highly interactive session during which the Students showed a high sense of awareness and also got the opportunity to learn many sets of rules that are mandatory for driving.

RBVRRWCP thanked the Hyderabad traffic Police officials for organizing this Traffic Awareness Program.

REPORT ON COVID -19 VACCINE AWARENESS on 16/03/2022

RBVRR Women's College of Pharmacy initiated a proactive COVID vaccine awareness campaign, with students taking on pivotal roles in disseminating crucial information. This effort extended beyond the college grounds, reaching out to the neighboring communities of Barkatpura and Kachiguda.

The students adopted a grassroots approach, distributing informative pamphlets designed to educate local residents about COVID-19 vaccines. These materials not only highlighted the effectiveness and importance of the vaccines but also addressed prevalent misconceptions and concerns regarding potential side effects.

Rather than merely distributing the pamphlets, students actively engaged with community members, initiating conversations, and providing clarity on any misunderstandings or anxieties. By serving as knowledgeable messengers, they played a vital part in bridging the gap between vaccine information and public understanding.

Through these interactions, students not only shared factual information but also fostered trust and confidence in the vaccines. By dispelling myths and tackling concerns directly, they helped to alleviate fears and uncertainties, ultimately contributing to an environment conducive to vaccine acceptance.

Moreover, this initiative had broader implications for public health awareness in the surrounding regions. By actively engaging with the community and promoting informed decision-making regarding vaccination, the students helped to cultivate a culture of health consciousness and accountability.

In essence, the COVID vaccine awareness campaign spearheaded by RBVRR Women's College of Pharmacy, with active student involvement, went beyond mere information dissemination. It underscored the institution's dedication to community welfare and advocacy for public health, making a positive impact on vaccine acceptance and awareness in nearby areas.

REPORT NPW 2022

RBVRR Women's College of Pharmacy, in collaboration with the Indian Pharmaceutical Association - TS and Pharmacy Education Institutions of Hyderabad, commemorated National Pharmacy Week with enthusiasm and fervor. The theme chosen for this year's celebration was "Pharmacy of the World - India." The week-long festivities encompassed a diverse array of events aimed at fostering excellence, innovation, and community engagement within the pharmacy fraternity. Here's a detailed overview of the events conducted during the celebration:

1. Pharma Quiz:

- A pharma quiz competition was organized to test the knowledge and expertise of students in various pharmaceutical topics. Participants engaged in a spirited competition, showcasing their understanding of pharmacy concepts and principles.

Working Pharma Model Competition:

- The working pharma model competition provided students with an opportunity to demonstrate their creativity and technical skills in designing and constructing innovative pharmaceutical models. These models served as tangible representations of theoretical concepts in pharmacy practice.

Blood Donation Camp:

- In alignment with the spirit of service and altruism, a blood donation camp was organized during the National Pharmacy Week celebration. Students and faculty members enthusiastically participated in donating blood, contributing to the noble cause of saving lives.

Medical Camp:

- A medical camp was set up to provide healthcare services and medical consultations to the community. This initiative aimed to promote health

awareness and facilitate access to basic healthcare facilities for the underserved population.

Artistic Competitions:

- Creative expressions were encouraged through painting, dance, and short film competitions revolving around the theme of National Pharmacy Week. Participants showcased their talents and interpretations of pharmacy's role in India and the world.

Recognition and Awards:

- Students from different pharmacy colleges actively participated in the competitions, demonstrating their commitment to excellence and innovation in the field of pharmacy. Winners were felicitated with prizes and certificates, acknowledging their achievements and contributions to the event.

Overall, the National Pharmacy Week celebration at RBVRR Women's College of Pharmacy served as a platform for fostering camaraderie, promoting academic excellence, and engaging in community service. Through a blend of academic, cultural, and philanthropic activities, the event celebrated the significance of pharmacy education and practice in India and highlighted the vital role of pharmacists in healthcare delivery and societal well-being.

The poster features the RBVRR Women's College of Pharmacy logo on the top left and the Osmania University logo on the top right. The central text reads: "RBVRR WOMEN'S COLLEGE OF PHARMACY", "3-4-343-Barkatpura, Hyderabad -500027, Approved by AICTE & PCI, Recognized under section 2(f) of the UGC Act 1956, Affiliated to Osmania University", "NATIONAL PHARMACY WEEK CELEBRATIONS(NPW)-2022", "ORGANIZED BY RBVRR WOMEN'S COLLEGE OF PHARMACY IN COORDINATION WITH IPA- TELANGANA STATE BRANCH", "19TH -25TH NOVEMBER, 2022". On the right, it says "INSTITUTION'S INNOVATION COUNCIL (Ministry of HRD Initiative)". At the bottom, it lists the theme "PHARMACY OF THE WORLD -INDIA", the program schedule for the Pharma Quiz Competition, and prizes for first, second, and third place.

Report on "Hepatitis Awareness" on 25/06/2022

RBVRR Women's College of Pharmacy organized an extension activity aimed at raising awareness about Hepatitis near NimboLIAdda, Kachiguda, on June 25, 2022. The event saw enthusiastic participation from students across all courses, who collaborated closely with the local community to make a significant impact on societal health.

Through a series of informative workshops, interactive sessions, and community engagement initiatives, the program sought to deepen public understanding of Hepatitis, covering its causes, symptoms, prevention, and available treatments. Students actively worked alongside community members, fostering a spirit of collaboration and leveraging local insights to effectively disseminate information.

The initiative's impact extended beyond mere awareness-raising, contributing to tangible improvements in public health outcomes. By empowering individuals with accurate information and promoting preventive measures, RBVRR Women's College of Pharmacy played a pivotal role in combating Hepatitis within the community.

The active participation of students from diverse academic backgrounds underscored the interdisciplinary approach to addressing health challenges, enriching the program with varied perspectives and expertise. Moreover, the collaborative efforts between the college and the community highlighted the significance of collective action in driving positive societal change.

In summary, this Hepatitis awareness program organized by RBVRR Women's College of Pharmacy exemplified the institution's commitment to promoting health equity and community well-being through collaborative endeavors.

HEPATITIS -A AWARENESS 2022 MARCH

- Hepatitis-A is an inflammation of the liver that can cause mild to severe illness.

• What are the Risk Factors?

- Poor sanitation
- lack of safe Water
- Being a sexual Partner of someone with acute hepatitis A infection
- Use of recreational drugs
- Living In a household with an infected person

CAUSES OF HEPATITIS A

• What are the signs and symptoms ?

- Loss of Appetite
- Low grade fever
- Joint pain
- Dark urine

• Preventive methods?

- Improved sanitation
- Food safety
- Immunization
- Spread of hepatitis-A Can be reduced by Proper disposal of sewage within communities

• What are Complications of Hepatitis-A

- Fulminant Hepatitis
- Cirrhosis
- Liver cancer

• How to get vaccine?

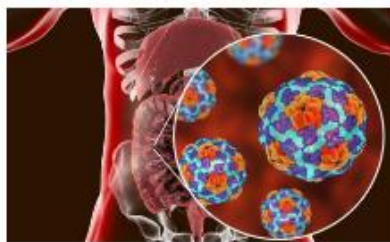

- The first type ,the single dose hepatitis A Vaccine is given as two shots ,6 months apart and both shots are needed for long term protection against Hepatitis-A.

• Is it diagnosed ?

- Blood test

• What are the stages ?

- Preicteric
- Icteric
- Posticteric

• Is it treated?

- No Specific treatment exists for Hepatitis-A

REPORT:-

National Science Day celebrations organized by RBVRR Women's College of Pharmacy on February 28th, 2022, exemplify a lifelong learning activity. By hosting a virtual science fair centred around the theme of "Idea Generation in Sustainability of Nature," the college provided both high school and college students with an opportunity to engage in hands-on learning and exploration.

Participating students had the chance to research, innovate, and create models that addressed important issues related to environmental sustainability. This process not only expanded their knowledge and understanding of scientific concepts but also fostered critical thinking, problem-solving skills, and creativity.

Furthermore, the collaborative nature of the event, which involved students from various schools, encouraged peer learning, exchange of ideas, and networking opportunities. By showcasing their models and participating in the competition, students were actively involved in their own educational journey, taking ownership of their learning experiences.

The recognition and awards given to the winners in the form of e-certificates and prizes served as incentives for their efforts and achievements, motivating them to continue their pursuit of knowledge and excellence.

Overall, the National Science Day celebrations organized by RBVRR Women's College of Pharmacy not only celebrated scientific inquiry and innovation but also embodied the spirit of lifelong learning, inspiring students to embrace curiosity, exploration, and continuous growth.

REPORT:-

The Pharmacology Department at RBVRR WCP went all out to mark World Cancer Day on February 4th, 2022, by organizing a diverse array of virtual events. These events were meticulously designed to engage participants in meaningful discussions and activities aimed at spreading awareness about cancer.

Firstly, there was the Fitness Challenge, which likely encouraged participants to adopt healthy lifestyle choices known to reduce cancer risk, such as regular exercise and balanced nutrition. The Illustration Competition, on the other hand, provided a creative outlet for individuals to express their thoughts and feelings about cancer through art, potentially sparking important conversations and reflections.

Additionally, the online webinar session served as a platform for experts to share valuable insights into cancer prevention and treatment, further enriching participants' understanding of the disease and empowering them with knowledge to take action.

Throughout these events, participants actively participated in discussions on various aspects of cancer, from risk factors to treatment options, contributing to a collaborative effort to raise awareness and combat the disease.

By awarding e-certificates to the winners, the department not only recognized their individual efforts and achievements but also incentivized continued engagement and participation in future initiatives.

Overall, the Pharmacology Department's dedication to leveraging online platforms to advance cancer awareness and encourage active participation in the fight against cancer is truly commendable.

Vigilance Awareness Week

Pharmacovigilance Week Celebrations: Fostering Awareness and Engagement in Pharmacovigilance RBVRR Women's College of Pharmacy, in association with IPC-PvPI, conducted Pharmacovigilance Week celebrations from September 17th to 23rd, 2021. The program aimed to raise awareness about pharmacovigilance and inspire budding healthcare professionals to actively participate in drug safety initiatives. Here's an overview of the outreach activities conducted during the event:

1. Welcome Note and Introductory Remarks:

- Prof. M. Sumakanth, Principal of RBVRR WCP, delivered a warm welcome note to kick off the event, setting the tone for the celebrations.
- Dr. J Archana, Head of the Department of Pharmacology, provided introductory remarks, highlighting the importance of pharmacovigilance in healthcare practice.

Engagement Events:

- Various events were scheduled to engage participants and ignite their interest in pharmacovigilance.
- E-Poster and Essay Writing Competitions: Participants had the opportunity to explore their ideas and perspectives on pharmacovigilance through creative mediums. These competitions encouraged them to delve deeper into the subject and contemplate real-world applications of pharmacovigilance principles.
- E-Quiz: An interactive e-quiz was organized to test the knowledge of aspiring healthcare professionals. The quiz served as an educational tool to assess participants' understanding of pharmacovigilance concepts and guide them in their academic pursuits.

Overwhelming Response:

- The Pharmacovigilance Week celebrations received an overwhelming response from participants across India. The enthusiastic engagement of attendees underscored the significance of raising awareness about pharmacovigilance and its role in ensuring drug safety.

Impact and Future Steps:

- The outreach activities conducted during Pharmacovigilance Week served as catalysts for fostering awareness and engagement in pharmacovigilance among healthcare professionals.
- Participants gained valuable insights into pharmacovigilance practices and were encouraged to incorporate these principles into their professional endeavors.
- Moving forward, RBVRR Women's College of Pharmacy aims to continue organizing similar initiatives to sustain momentum and further promote pharmacovigilance awareness and education.

In conclusion, the Pharmacovigilance Week celebrations at RBVRR Women's College of Pharmacy successfully achieved their objectives of raising awareness and fostering engagement in pharmacovigilance. Through innovative outreach activities, the event inspired participants to embrace pharmacovigilance principles and contribute to drug safety efforts in the healthcare sector.

REPORT ON World Nature Conservation Day on July 28th 2021

RBVRR Women's College of Pharmacy adapted to the challenges posed by the COVID-19 pandemic by organizing a plantation programme by teaching and non teaching faculty in campus premises and also organizing virtual events for students in celebration of World Nature Conservation Day on July 28th. The primary objective of observing this day is to unite individuals in advocating for and supporting nature conservation, with a particular focus on raising awareness among communities.

Given the pressing issues like global warming, the prevalence of various diseases, natural disasters, and rising temperatures, all of which stem from a natural imbalance, it is imperative to address these concerns for the well-being of current and future generations. Preserving nature is paramount, and it is crucial to educate people worldwide about the importance of conserving resources, recycling materials, preserving natural habitats, and understanding the consequences of environmental damage.

As part of the virtual event, RBVRR WCP organized a poster competition under the theme "Forests and livelihood: Sustaining People and Planet." This initiative provided students with a creative outlet to express the significance of forests in supporting both human livelihoods and the planet's ecosystems.

Furthermore, the college encouraged students to participate in a "Take a selfie" campaign, where they were prompted to capture themselves engaging in activities such as planting saplings, surrounded by greenery, or caring for existing trees. This campaign aimed to raise public awareness about the importance of conservation efforts and inspire collective action in preserving nature.

The images and videos generated during these activities were shared across social media platforms to amplify the message of nature conservation to a wider audience. Additionally, winners of the poster competition were acknowledged and awarded for their contributions to promoting environmental awareness and conservation efforts.

Through these virtual events, RBVRR Women's College of Pharmacy demonstrated its commitment to overcoming barriers imposed by the COVID-19 pandemic while continuing to advocate for environmental stewardship and sustainability. By engaging in such initiatives, the college plays a pivotal role in fostering a culture of environmental responsibility and encouraging collective action for the preservation of our natural world.

Report:-

RBVRR Women's College of Pharmacy took initiative to celebrate Earth Day on April 22, 2021, by organizing a series of engaging activities aimed at promoting environmental awareness and conservation. The festivities included a range of competitions such as drawing, quiz, and slogan writing, providing students with creative platforms to express their dedication to environmental protection.

Through these competitions, participants were encouraged to explore various aspects of environmental conservation, from biodiversity and climate change to sustainable living practices. The drawing competition allowed students to visually represent their visions for a greener and more sustainable future, while the quiz tested their knowledge of environmental issues and solutions. Additionally, the slogan writing competition provided an opportunity for students to craft concise and impactful messages advocating for the preservation of our planet.

To amplify the reach of the event and foster broader awareness, submissions from the competitions were shared on social media platforms. By showcasing the creative works of participants, the college aimed to inspire others to join the movement towards environmental stewardship. Through engaging visuals, thought-provoking quizzes, and compelling slogans, the college sought to underscore the urgency of protecting the environment and highlight the collective responsibility we share in safeguarding our planet for future generations.

Overall, the Earth Day celebrations organized by RBVRR Women's College of Pharmacy served as a rallying call for environmental action, empowering students to become advocates for positive change. By harnessing the power of social media and creative expression, the college effectively raised awareness about the importance of environmental conservation and emphasized the need for collective efforts to address pressing environmental challenges.

Topic:- National Science Day Celebrations

Date:- March 1, 2021

Link:-<https://youtu.be/o4u2s1D1JGQ>

Link:-<https://youtu.be/YwKuEOajDQY>

Report:-

RBVRR Women's College of Pharmacy organized a significant event on March 1st, 2021, to commemorate National Science Day. The occasion commenced with the lighting of the lamp, followed by a brief introduction by Prof. M. Sumakanth, highlighting the importance of this day and honoring the legacy of Sir Chandrasekhar Venkata Raman for his groundbreaking discovery of the Raman Effect, which earned him the Nobel Prize.

The event featured two distinguished speakers who shared their insights on various aspects of science and technology. Dr. S. Venkata Mohan, Senior Principal Scientist at CSIR-IICT, delivered a session focusing on "Science and Technology Interventions for Sustainable Development." He discussed innovative approaches such as the recovery of SARS-Cov2 RNA from sewage and methodologies for wastewater-based epidemiological studies. Additionally, he elaborated on strategies to mitigate CO2 emissions and highlighted the importance of microbe metabolism and solid waste management.

In the second session, Dr. V. Balaram, Former Emeritus Scientist at NGRI, Hyderabad, shed light on the current landscape of science and technology, emphasizing research areas of significance at both national and global levels. He encouraged students to engage in research with innovative ideas and discussed the practical applications of Raman spectrometry.

The webinar concluded with a vote of thanks, expressing gratitude to the speakers and participants for their active involvement. Feedback was collected to gauge the effectiveness of the sessions and to further improve future events.

Overall, the National Science Day event organized by RBVRR Women's College of Pharmacy served as a platform for knowledge exchange and inspiration, fostering a deeper appreciation for the role of science and technology in sustainable development and societal advancement.

REPORT:-

RBVRR Women's College of Pharmacy marked World TB Day on March 24, 2021, with a focus on the theme "The clock is Ticking," which emphasizes the urgency for global leaders to fulfill their commitments to eradicate TB. As part of the observance, the college organized competitions in video making, chart making, and E-poster design. These competitions aimed to raise public awareness about the severe health, social, and economic impacts of TB.

Participants were encouraged to creatively showcase the importance of TB awareness and prevention through their submissions. The competitions provided students with an opportunity to express their understanding of the TB epidemic and its implications for society. By engaging in these activities, participants contributed to the dissemination of crucial information and helped combat the stigma associated with TB.

At the conclusion of the competitions, winners were selected based on the creativity, effectiveness, and relevance of their entries. Prizes and certificates were awarded to the deserving participants as recognition of their efforts in promoting TB awareness. This acknowledgment served to motivate individuals to continue their advocacy efforts and inspire others to join the fight against TB.

Overall, the World TB Day observance at RBVRR Women's College of Pharmacy served as a platform to highlight the urgency of addressing the TB epidemic while empowering students to become active agents of change in their communities. Through innovative competitions and recognition of participants' contributions, the college reaffirmed its commitment to raising awareness about TB and working towards its elimination.

REPORT:-Pharmacovigilance Week

DATE:-3/10/2020

RBVRR Women's College of Pharmacy organized a guest lecture as part of Pharmacovigilance Week, focusing on the theme "Pharmacovigilance in Drug Discovery." The esteemed speaker for the event was Dr. Rao Vadlamudi, President of the Commonwealth Pharmacists Association (CPA).

Dr. Rao Vadlamudi, renowned for his expertise in pharmacovigilance, delivered an insightful presentation on the vital role of pharmacovigilance in the process of drug discovery. His extensive experience and leadership in the pharmaceutical field brought valuable perspectives to the audience. During the lecture, Dr. Vadlamudi elucidated on the importance of vigilance in monitoring and assessing the safety profile of drugs during the discovery phase. He highlighted the significance of early detection and reporting of adverse drug reactions (ADRs) to ensure the development of safe and efficacious pharmaceutical products.

Dr. Vadlamudi's presentation delved into the challenges and opportunities inherent in pharmacovigilance practices within drug discovery, emphasizing the need for robust surveillance systems and collaborative efforts among stakeholders. He shared case studies and real-world examples to illustrate the practical application of pharmacovigilance principles in optimizing drug safety and efficacy.

The lecture provided an enriching learning experience for students, faculty, and professionals in attendance, offering valuable insights into the complexities of pharmacovigilance in drug discovery. Dr. Vadlamudi's expertise inspired attendees to deepen their understanding of pharmacovigilance practices and their impact on public health.

RBVRR Women's College of Pharmacy's initiative to host such a distinguished guest lecture underscored its commitment to fostering academic excellence and promoting awareness of crucial healthcare issues. The event served as a platform for knowledge exchange and professional development, contributing to the college's mission of preparing future leaders in the pharmaceutical industry.

Overall, the guest lecture by Dr. Rao Vadlamudi was a resounding success, leaving a lasting impression on the audience and reinforcing the importance of pharmacovigilance in advancing drug discovery and ensuring patient safety.

Report

RBVRR Women's College of Pharmacy organized a spirited rally to commemorate World Pharmacist Day in 2019, with enthusiastic involvement from students pursuing both Bachelor of Pharmacy (B.Pharm) and Doctor of Pharmacy (Pharm.D) degrees. The overarching theme of the event, "Safe and effective medicines for all," was carefully chosen to emphasize the indispensable role pharmacists play in ensuring the safety and efficacy of medication usage among all individuals.

This theme resonates deeply with the core principles of pharmacy practice, as it underscores the pharmacist's responsibility to uphold patient safety by optimizing medication regimens and mitigating the risk of errors. Through the rally, students sought to raise awareness about the critical contributions of pharmacists in healthcare settings and their tireless efforts to enhance medication management processes.

The participation of both B.Pharm and Pharm.D students symbolizes their shared commitment to advancing the pharmacy profession and advocating for the well-being of patients. By actively engaging in the rally, students not only demonstrated their dedication to promoting health literacy and medication safety but also showcased their solidarity in championing the vital role of pharmacists within the broader healthcare landscape.

Overall, the rally served as a poignant reminder of the significance of pharmacists in safeguarding public health and ensuring equitable access to safe and effective medicines for all members of society. It provided a platform for students to amplify their voices, foster community engagement, and inspire positive change in medication management practices.

REPORT ON "WELLNESS OF SHE"

Date:- March 5th, 2020,

On March 5th, 2020, RBVRR Women's College of Pharmacy organized a guest lecture on "Wellness of She," featuring Dr. Sirisha Reddy, a Gynaecologist from Care Hospitals, Musheerabad, as the distinguished speaker. The session commenced with Dr. Sirisha Reddy delving into the various factors contributing to individual wellness, including environmental, social, physical, intellectual, and emotional aspects. However, she emphasized that genetics, environment, and lifestyle are the three primary factors influencing overall health and wellness.

Dr. Sirisha Reddy elaborated on lifestyle as a crucial determinant of an individual's well-being, defining it as the sum of one's habits, activities, and daily routines. She highlighted the prevalence of lifestyle diseases, attributing them to factors such as sedentary lifestyles, dietary habits, work environments, and stress levels. Common lifestyle diseases discussed included obesity, diabetes, hypertension, depression, cardiovascular diseases, and cancer. Furthermore, Dr. Sirisha Reddy underscored the importance of health and hygiene in women's lives, addressing misconceptions surrounding various women's health issues. Her presentation aimed to empower women with knowledge and understanding, enabling them to make informed decisions about their health and well-being.

Through this guest lecture, RBVRR Women's College of Pharmacy facilitated a platform for students to gain insights into the critical aspects of women's wellness and health. Dr. Sirisha Reddy's expertise and guidance provided attendees with valuable information and perspectives, fostering a deeper understanding of the importance of adopting healthy lifestyles and prioritizing women's health and hygiene.

AWARENESS TALK ON MIGRAINE AND HEADACHES.

On November 3rd, 2018, RBVRR Women's College of Pharmacy hosted a Guest Lecture on "Migraine and Headaches," featuring Dr. M. A. Salam Khan, a renowned Neurophysician from Life Care Hospital, Hyderabad. The event commenced with a warm welcome address, during which the Principal extended gratitude to the esteemed guest speaker and provided an overview of the lecture's contents to the students.

The primary objective of the session was to gain comprehensive insights into the causes of Migraine, with Dr. M. A. Salam Khan serves as the resource person. The lecture, which commenced at 11:30 am and concluded at 1:00 pm, delved into the symptoms and typical features of Migraine, offering valuable knowledge to the attendees.

Throughout the session, Dr. M. A. Salam Khan engaged with the audience, addressing their queries and facilitating an interactive dialogue with both staff and students. This collaborative approach enhanced the learning experience, allowing for a deeper understanding of the subject matter.

Following the lecture, students shared their feedback, expressing appreciation for the informative session and highlighting how they benefited from the insights provided by Dr. M. A. Salam Khan. Their feedback underscored the value of the lecture in expanding their understanding of Migraine and its management.

Overall, the Guest Lecture on "Migraine and Headaches" proved to be an enriching experience for the attendees, equipping them with valuable knowledge and insights into this prevalent health condition. It exemplified RBVRR Women's College of Pharmacy's commitment to providing holistic education and fostering engagement with experts in the field to enhance students' learning journey.

AWARENESS PROGRAM ON CANCER MYTHS AND FACTS

On February 25th, 2019, RBVRR Women's College Of Pharmacy organized a Guest Lecture on "Cancer-Myths and Facts," featuring Dr. RachanaChenamaneni from NIMS, Hyderabad, as the esteemed speaker. The event commenced with the Principal expressing gratitude to Dr. RachanaChenamaneni and providing an overview of the lecture's contents to the students.

The lecture focused on raising awareness about cancer, debunking myths surrounding the disease, and presenting factual information to the attendees. Dr. RachanaChenamaneni adeptly began her presentation by elucidating the causes of cancer and addressing prevalent misconceptions. She emphasized preventive measures and underscored the importance of early detection in combating the disease.

Throughout the session, Dr. RachanaChenamaneni elaborated on various treatment modalities for cancer, including surgery, chemotherapy, radiation therapy, and immunotherapy. She provided insights into how the choice of therapy is determined by factors such as tumor location, grade, and disease stage.

An interactive Q&A session followed, during which Dr. RachanaChenamaneni actively engaged with students and staff, addressing their queries and discussing emerging trends in cancer management. Her willingness to share knowledge and expertise enhanced the learning experience for all attendees.

Overall, the Guest Lecture on "Cancer-Myths and Facts" proved to be informative and enlightening, providing students with valuable insights into the disease and its management. It exemplified RBVRR Women's College Of Pharmacy's commitment to fostering awareness and education on critical health issues, thereby empowering students to make informed decisions and contribute to the fight against cancer.
