Sir,

In continuation of our Pharm D student's Hospital postings at Continental Hospital, this is to bring your kind notice that the Pharm D III year students should study minimum 20 cases per student. They need to attend the ward rounds, follow up the progress, observe the changes made in drug therapy and collect discharge summary in allotted patients by covering most common diseases.

So, I am herewith requesting you to permit the students as per your convenience. We request you to provide one room with white board, computer system and seating arrangement during the scheduled time. Let us know the confirmation as early as possible.

Hospital visit Schedule for academic year 2019-20

P.Rajasree R.Pallavi	
S.Navaneetha P.Ratnavalli	
Syeda Sanober Siddiqua U. Hima bindu	
Wajiha Fatima	

Pharm D students are posted to various departments to gain knowledge on:

1. Diseases: their clinical presentations, differential diagnosis, drug therapies (guidelines based, practical conditions, recent advancements), non-pharmacological management of disease (surgeries, life-style modifications).
2. Dose calculations and adjustments.
3. Methods to identify potential drug interactions, ADR'S and learn strategies to overcome it along with methods to treat it when found.
4. Individualized patient treatment plan and counseling techniques and methods.

All these could be obtained by:

1. Practical case discussions with the clinicians
2. Case presentation to clinicians
3. Attending ward rounds.
4. Clinicians guidance in understanding the treatment, following up the case progress along with understanding the changes made in treatments if any.

Activity Report

The collaboration between RBVRR Women's College of Pharmacy and Continental Hospitals has provided PharmD students with a unique opportunity to gain practical experience in a clinical setting. This report outlines the objectives, activities, and outcomes of the internship program.

Objectives:

1. To provide students with hands-on experience in pharmaceutical care delivery within a hospital setting.
2. To enhance students' understanding of the role of pharmacists in patient care.
3. To develop students' communication and collaboration skills with other healthcare professionals.
4. To expose students to various aspects of hospital pharmacy practice, including medication management, patient counseling, and drug information services.

Activities:

1. **Orientation:** The internship began with an orientation session, during which students were introduced to the hospital's policies, procedures, and safety protocols.
2. **Clinical Rotations:** Students participated in rotations through different departments of the hospital pharmacy, including inpatient pharmacy, outpatient pharmacy, and clinical pharmacy services. They had the opportunity to observe and assist pharmacists in various tasks such as medication dispensing, medication reconciliation, and therapeutic drug monitoring.
3. **Patient Counseling:** PharmD students engaged in patient counseling sessions under the supervision of licensed pharmacists. They provided information on medication usage, potential side effects, and adherence strategies to patients and their caregivers.
4. **Interdisciplinary Collaboration:** Students collaborated with other healthcare professionals, including physicians, nurses, and dietitians, to optimize patient care outcomes. They actively participated in multidisciplinary rounds and case discussions.
5. **Research Projects:** Some students were involved in conducting research projects related to hospital pharmacy practice. They collected and analyzed data under the guidance of faculty mentors and hospital pharmacists.

Outcomes:

1. **Enhanced Clinical Skills:** The internship provided students with practical experience in medication management and patient care, enhancing their clinical skills and confidence.

2. **Improved Communication Skills:** Students developed effective communication skills through interactions with patients, healthcare professionals, and faculty mentors.
3. **Expanded Knowledge Base:** Exposure to different clinical settings and patient populations broadened students' understanding of pharmaceutical care delivery in diverse healthcare settings.
4. **Professional Networking:** The internship facilitated networking opportunities with experienced pharmacists and healthcare professionals, which may benefit students in their future careers.
5. **Personal Growth:** Through the internship experience, students gained insight into the importance of lifelong learning and professional development in the field of pharmacy.

Conclusion: The internship program in collaboration with Continental Hospitals has been a valuable learning experience for PharmD students from RBVRR Women's College of Pharmacy. It has provided them with practical skills, knowledge, and professional connections that will serve them well in their future careers as pharmacists.
