Report:-

RBVRR Women's College of Pharmacy organized a free medical camp in collaboration with Prathima Hospitals, which took place on August 24, 2022, within the college premises. The camp offered various medical examinations including blood pressure (BP) checks, 2D echocardiograms (echo), electrocardiograms (ECG), glucose readings (GRBS), and bone mineral density (BMD) tests.

This initiative aimed to benefit the local community by providing access to essential healthcare services that might otherwise be inaccessible or financially burdensome. By offering these medical examinations free of charge, RBVRR Women's College of Pharmacy and Prathima Hospitals demonstrated their commitment to promoting social well-being and raising health awareness within the community.

The impact of this extension activity on society was significant, as it addressed healthcare disparities and improved access to medical services for underserved populations. Beyond providing valuable health screenings, the medical camp also served as a platform to educate individuals about preventive healthcare measures and encourage them to take proactive steps towards better health.

By partnering with Prathima Hospitals, RBVRR Women's College of Pharmacy effectively leveraged resources to make a positive impact on the health and well-being of the community. This initiative exemplifies the college's dedication to social responsibility and its role in serving the broader societal needs beyond academic pursuits.

REPORT NPW 2022

RBVRR Women's College of Pharmacy, in collaboration with the Indian Pharmaceutical Association - TS and Pharmacy Education Institutions of Hyderabad, commemorated National Pharmacy Week with enthusiasm and fervor. The theme chosen for this year's celebration was "Pharmacy of the World - India." The week-long festivities encompassed a diverse array of events aimed at fostering excellence, innovation, and community engagement within the pharmacy fraternity. Here's a detailed overview of the events conducted during the celebration:

1. Pharma Quiz:

- A pharma quiz competition was organized to test the knowledge and expertise of students in various pharmaceutical topics. Participants engaged in a spirited competition, showcasing their understanding of pharmacy concepts and principles.

2. Working Pharma Model Competition:

- The working pharma model competition provided students with an opportunity to demonstrate their creativity and technical skills in designing and constructing innovative pharmaceutical models. These models served as tangible representations of theoretical concepts in pharmacy practice.

3. Blood Donation Camp:

- In alignment with the spirit of service and altruism, a blood donation camp was organized during the National Pharmacy Week celebration. Students and faculty members enthusiastically participated in donating blood, contributing to the noble cause of saving lives.

4. Medical Camp:

- A medical camp was set up to provide healthcare services and medical consultations to the community. This initiative aimed to promote health awareness and facilitate access to basic healthcare facilities for the underserved population.

5. Artistic Competitions:

- Creative expressions were encouraged through painting, dance, and short film competitions revolving around the theme of National Pharmacy Week. Participants showcased their talents and interpretations of pharmacy's role in India and the world.

6. Recognition and Awards:

- Students from different pharmacy colleges actively participated in the competitions, demonstrating their commitment to excellence and innovation in the field of pharmacy.

Winners were felicitated with prizes and certificates, acknowledging their achievements and contributions to the event.

Overall, the National Pharmacy Week celebration at RBVRR Women's College of Pharmacy served as a platform for fostering camaraderie, promoting academic excellence, and engaging in community service. Through a blend of academic, cultural, and philanthropic activities, the event celebrated the significance of pharmacy education and practice in India and highlighted the vital role of pharmacists in healthcare delivery and societal well-being.

Report:-

The Pharmacist Day celebrations at RBVRR WCP, which took place on September 24, 2022, marked a significant occasion on the eve of World Pharmacists Day, traditionally celebrated on September 25 each year. The event held additional significance as it coincided with the concluding day of a three-day conference. Dr. Apte, an esteemed Chief Guest, played a pivotal role in the festivities by releasing the college newsletter, adding a special touch to the Pharmacist Day celebrations. The occasion witnessed enthusiastic participation from the faculty and students of B. Pharm, M. Pharm, and Pharm D programs.

By aligning the celebration with the global recognition of World Pharmacists Day, RBVRRWCP acknowledged the collective efforts and contributions of pharmacists worldwide. The three-day conference leading up to this celebration likely served as a dynamic platform for knowledge exchange, professional development, and networking within the pharmaceutical community.

The release of the college newsletter by Dr. Apte not only symbolized the commitment to transparency and communication within the institution but also highlighted the achievements and endeavors of RBVRR WCP in the field of pharmaceutical sciences. Overall, the Pharmacist Day celebrations at RBVRR WCP served as a momentous occasion to honor and celebrate the indispensable role of pharmacists, both locally and globally.

Report:- World AIDS Day

Date:-01/12//2022.

On December 1st, 2022, RBVRR Women's College of Pharmacy marked World AIDS Day with a series of meaningful activities aimed at raising awareness and fostering understanding about HIV/AIDS. At the forefront of these initiatives was the National Service Scheme (NSS), which orchestrated a seminar focusing on the theme "Putting ourselves to the Test: Achieving Equity to end HIV."

Led by Dr. Venkat Ramesh, an esteemed Infectious Disease specialist affiliated with Apollo Hospital, the seminar provided a platform for students to delve into the complexities of HIV/AIDS. Dr. Ramesh, drawing from his extensive expertise, delivered a comprehensive presentation addressing various aspects of the disease, including its transmission, prevention, treatment, and the importance of destigmatization.

Through engaging discussions and interactive sessions, students gained valuable insights into the global efforts aimed at combating HIV/AIDS and the significance of achieving equity in healthcare access and support. Dr. Ramesh's expertise and firsthand experiences lent credibility and depth to the seminar, allowing participants to grasp the gravity of the HIV/AIDS epidemic and the urgent need for collective action.

Moreover, the seminar served as an opportunity for students to dispel misconceptions and myths surrounding HIV/AIDS, fostering a more informed and compassionate attitude towards individuals living with the virus. By equipping students with accurate information and empowering them to become advocates for change, the seminar played a pivotal role in breaking down barriers and promoting inclusivity within the community.

Overall, the commemoration of World AIDS Day at RBVRR Women's College of Pharmacy, facilitated by the NSS seminar led by Dr. Venkat Ramesh, was a testament to the institution's commitment to education, awareness, and advocacy in the fight against HIV/AIDS. It not only provided a platform for knowledge dissemination but also inspired students to actively contribute towards creating a world free from the stigma and discrimination associated with HIV/AIDS.

REPORT:-

Due to an immense increase in the number of vehicles that zoom across the roads in Telangana , the roads of Telangana have recorded a large number of deaths due to road accidents. In its effort to create awareness about traffic safety, Community Policing, the Hyderabad Traffic Police conducted a seminar on Traffic Awareness at RBVRR WCP on 23rd December, 2022.

It was a wonderful experience for the students of RBVRR WCP as they were attuned with the Traffic Rules to be followed. The Awareness session was taken by the Traffic Training Institute ACP G. Shanker, Narayanguda PS Sub-inspector of Police Naga Rani & Sub-inspector Mohan Babu . Narayanguda PS Sub-inspector of Police Naga Rani addressed the young students, and explained about the need of awareness among the students and role they can play in reducing the number of accidents caused on roads. She also spoke about the Community Policing, which is all about providing security and help to the people at their door steps. She made it clear that people do not even need to go to the police station to report an incident. Their service to the community would be prompt and just a call away.

Later, Traffic Training Institute ACP G. Shankar, presented before the students the set of traffic rules that people need to follow and maintain while driving. It was a highly interactive session during which the Students showed a high sense of awareness and also got the opportunity to learn many sets of rules that are mandatory for driving.

RBVRRWCP thanked the Hyderabad traffic Police officials for organizing this Traffic Awareness Program.

Report

National Girl Child Day in India is celebrated on January 24th every year. This day was an initiative of the Ministry of Women and Child Development in 2008. The objective behind celebrating the National Girl Child Day is to provide support and opportunities to the girls of India. It also aims towards promoting awareness about the rights of the girl child and to increase awareness on the importance of girl education, and their health and nutrition. On this occasion, RBVRR WCP has conducted a talk on topic Awareness on Girl Child Trafficking & problem faced by them. Mr. E. Akkeshwar Rao, Dist. Welfare officer, WCD & SC, Hyderabad was invited as a Chief Guest and Speaker of the Day. He addressed the students and made them aware how girl child are been trafficking, how to handle those situations and the various laws that help in these situations.

Competitions like poster presentation, painting & slogan writing were conducted by RBVRRWCP and the winners were awarded along with participation certificates.

SWACHH BHARAT

The Swachh Bharat Abhigyan was celebrated on 25th of January 2023. On this day, our students have volunteered to clean and sanitize our campus. They swept, plucked out weeds and collected the solid waste. This was done to increase awareness of health management. As health is very much related to our surroundings.

Clean surroundings will always have a major impact on health. The students who participated were mostly of B. Pharmacy 2nd year and Pharm.D 3rd year. All the volunteers were given masks, gloves and hats for their own protection.

We have volunteered for the event based on the National service scheme which was designed under the motto "Not me, But you". This event promotes the basic discipline of human nature, as we say "Cleanliness is next to godliness".

Students were encouraged to learn the virtue of Clean India Campaign.

NATIONAL SCIENCE DAY

On February 28, 2023, RBVRR College of Pharmacy orchestrated a vibrant celebration in honor of National Science Day. The focal point of this event was a seminar focused on the theme "Fundamentals in Virology and Preparation for the Challenges Ahead." The seminar aimed to delve into the foundational principles of virology, a field of science crucial in understanding and combating viral diseases, and to explore strategies for addressing future challenges in this domain.

Dr. Karuna Rupala, an esteemed figure in the field of biochemistry, graced the occasion as the keynote speaker. As the Associate Professor and Head of the Department of Biochemistry at University College of Science, Osmania University, Dr. Rupala brought with her a wealth of expertise and insights. Her presentation likely covered a wide range of topics, including recent advancements in virology research, emerging viral threats, and innovative approaches to tackle them.

The seminar provided a valuable platform for students, faculty, and attendees to engage in discussions, exchange ideas, and deepen their understanding of virology. Through Dr. Rupala's expertise and the collaborative atmosphere of the event, participants likely gained

POLIO AWARENESS - 2023, MARCH

• What is polio ?

POLIO is an infectious disease caused by a virus that can spread from person to person and cause paralysis by affecting nerves in the spinal cord or brain stem

• What are the causes ?

• **POLIOVIRUS** causes polio

• What are the stages ?

- Acute stage
- Recovery stage
- Residual paralysis stage

• Is it treated ?

• There is no cure for polio only treatment to alleviate the symptoms

• What are signs and symptoms ?

- Headache.
- Sore throat
- Malaise
- Slight cough
- Joint pain
- Diarrhoea
- constipation
- Backache
- Mild neck stiffness
- Pyrexia of variable duration and severity

• prevention ?

- Inactivated poliovirus vaccine (IPV)
- Oral poliovirus vaccine (OPV)

College Code: 1706

• Is it Diagnosed ?

- Magnetic Resonance Imaging (MRI)
- Collect of samples of blood ,stool ,urine, spinal fluid
- Physical examination
- Detailed medical history
- Vaccination history

What are complications of polio ?

- Paralysis with bulbar involvement
- Fatal Respiratory
- Cardiovascular collapse
- Post polio syndrome

• What are Risk factors ?

- Immune deficiency
- Malnutrition
- Physical activity
- Pregnancy
- Tonsillectomy
- Clinical features

• Vaccination ?

- Children's usually get the inactivated poliovirus vaccine (IPV) at ages 2 months, 4 months, 6-18 months, and 4-6 years.
- IPV is given by shot In the arm or leg
- Oral polio vaccine is safe and extremely effective and the most common kind of vaccine used in the fight to eradicate Polio
- In **OPV** vaccine is given through mouth for babies of months to 5 years

Polio awareness programme on 01/3/2023.

Report :-

RBVRR Women's College of Pharmacy made a significant societal contribution by organizing a Polio awareness program on March 1st, 2023. This initiative went beyond mere information dissemination; it was a proactive effort to enhance the overall health of the community.

Through interactive sessions, educational workshops, and outreach activities, the program aimed to deepen public understanding of polio, its prevention methods, and the crucial role of vaccination. By engaging with local residents, especially parents and caregivers, the initiative aimed to dispel misconceptions, address concerns, and encourage active participation in polio vaccination campaigns.

What made this initiative impactful was its potential to contribute to the eventual eradication of polio. By providing accurate information and promoting vaccination, RBVRR Women's College of Pharmacy played a vital role in safeguarding not only individual health but also the well-being of entire communities. This effort not only raised awareness but also fostered a culture of health-consciousness and communal responsibility, leaving a lasting impression on societal welfare.

DONATION TO NAVODAYA TRUST AND ONE DAY MEAL TO PHIN DEAF SCHOOL MALAKPET

RBVRR Women's College of Pharmacy's Aid to Phin Deaf School and Navodaya Trust

Introduction:

The faculty and students at RBVRR Women's College of Pharmacy have recently engaged in charitable endeavors to support both the Phin Deaf School in Malakpet and the Navodaya Trust in Sultan Bazar. Their efforts include providing a day's meal to the Phin Deaf School and contributing funds to the Navodaya Trust for orphan support.

Background:

RBVRR Women's College of Pharmacy is well-known for its academic excellence and community involvement, with a strong commitment to social welfare. The Phin Deaf School in Malakpet caters to students with hearing impairments, while the Navodaya Trust focuses on assisting orphaned children.

Charitable Initiatives:

Motivated by compassion, the faculty and students of RBVRR Women's College of Pharmacy organized a dual initiative. They arranged for a day's meal to be provided to the Phin Deaf School students and raised funds for orphan support through donations to the Navodaya Trust.

Impact:

These generous acts will have a significant impact on both the Phin Deaf School and the Navodaya Trust. Providing a day's meal to the Phin Deaf School students meets immediate nutritional needs and fosters a sense of care within the school community. Similarly, the funds donated to the Navodaya Trust will enable them to continue their important work in supporting orphaned children.

Conclusion:

The charitable efforts of the faculty and students at RBVRR Women's College of Pharmacy highlight their dedication to social responsibility and community welfare. By aiding the Phin Deaf School and the Navodaya Trust, they demonstrate a commitment to bringing about positive change. Such actions not only benefit the recipients but also cultivate a culture of empathy and generosity within the college community.

TUBERCULOSIS AWARENESS - 2023, MARCH.

• **Tuberculosis (TB) is an ancient disease that has affected mankind for more than 4,000 years (1).**

• TB remains a leading cause of morbidity and mortality in developing countries, including Bangladesh. With the discovery of chemotherapy in the 1940s and adoption of the standardized short course in the 1980s, it was believed that TB would decline globally.

• what is tuberculosis?

• It is a chronic disease caused by the bacillus Mycobacterium tuberculosis and spreads from person to person through air.

• what are the causes ?

• Bacillus " Mycobacterium Tuberculosis" .

• what are the stages?

Primary TB infection.

• Latent TB infection.

• Active disease .

• What are the Signs and symptoms?

• Coughing up blood.

• Weight loss.

• Persistent cough.

• Chest pain.

• Fatigue, Chills.

• loss of appetite.

• what are the Risk factors?

• Illicit drug use.

• Diabetes mellitus .

• Alcoholism.

• Smoking. 🚬

• preventive methods ?

• Refrain from spitting on the ground.

• Maintain personal hygiene.

• Avoid smoking 🚬.

• Cover the mouth and nose when sneezing or coughing.

• Minimize contact with individuals who are infected

• Consider receiving a BCG vaccination.

• Visit a doctor for early diagnosis and treatment

• Is it Diagnosed?

• Tuberculin skin test (PPD test).

• Tuberculosis blood test (IGRA).

• Bronchoscopy.

• Chest CT scan.

• Chest X-ray.

• Sputum examination and cultures

• Is it treated ?

Yes it is,

TREATMENT OF TUBERCULOSIS

• What are complications of TB ?

• If TB of the lung is not treated early or is treatment is not followed, long lasting lung damage.

• How to get vaccine?

• Get a prescription from medical practitioner.

If u have any comorbidities(like coughing up blood ,chest pain ,fever , weight loss.)

• Get register in the official websites.

NAME OF THE ACTIVITY:- TB awareness programme DATE:- 23/3/2023

RBVRR Women's College of Pharmacy led a Tuberculosis (TB) awareness campaign in Malakpet on March 23, 2023, with active participation from both Bachelor of Pharmacy (B.Pharm) and Doctor of Pharmacy (Pharm.D) students. The initiative aimed to make a tangible impact on society through an extension activity, going beyond mere information dissemination to address the pressing issue of TB in the community.

Through a series of educational workshops, interactive sessions, and community outreach efforts, the program sought to deepen public understanding of TB, covering its symptoms, transmission, and available treatments. Engaging with local residents, especially those at high risk, the initiative aimed to dispel misconceptions, reduce stigma, and promote early detection and treatment-seeking behavior.

The involvement of B.Pharm and Pharm.D students added value to the initiative, showcasing interdisciplinary collaboration and expertise in pharmaceutical sciences. Their active participation not only demonstrated their commitment to societal welfare but also enriched the campaign with diverse perspectives and insights.

The impact of this initiative extended beyond raising awareness, contributing to tangible improvements in public health outcomes. By empowering individuals with accurate information and promoting proactive health-seeking behaviors, RBVRR Women's College of Pharmacy played a crucial role in mitigating the burden of TB within the community.

Overall, this extension activity underscored the vital role of educational institutions in addressing public health challenges and driving meaningful societal impact. Through collaborative efforts and community engagement, RBVRR Women's College of Pharmacy demonstrated its dedication to promoting health equity and enhancing the well-being of vulnerable populations with the active participation of both B.Pharm and Pharm.D students.

Gender Equality 2K and 5K Run

Women are celebrated for their accomplishments regardless of any divisions, whether they be national, ethnic, linguistic, cultural, economic, or political. International Women's Day has evolved into a globally significant event for women in both developed and developing nations. The international women's movement, bolstered by four global United Nations women's conferences, has transformed this commemoration into a rallying point to advocate for women's rights and their involvement in political and economic spheres.

To mark International Women's Day, the SHE teams of Hyderabad City Police organized a "Gender Equality 2K and 5K Run" on March 6, 2023, starting at 5 am at People's Plaza, Necklace Road, Hyderabad. This run aimed to promote gender equality by encouraging participation from diverse backgrounds. Participants, including 111 students from B.Pharm and Pharm D programs, received attractive T-shirts and finisher medals from the Hyderabad City Police

Report :-RBVRR Women's College of Pharmacy spearheaded a comprehensive conjunctivitis awareness campaign in Ramkote on June 15, 2023, with enthusiastic involvement from both B.Pharm and Pharm.D students. The initiative aimed to make a tangible impact on society through an extension activity, going beyond mere information dissemination to address the pressing issue of conjunctivitis in the community.

Through a series of educational workshops, interactive sessions, and community outreach efforts, the program sought to deepen public understanding of conjunctivitis, covering its symptoms, transmission, available treatments, and essential precautions for eye cleanliness. Emphasis was placed on proper hand hygiene, avoiding touching the eyes with unwashed hands, and regularly cleaning surfaces that come into contact with the eyes.

Engaging with local residents, especially those at high risk, the initiative aimed to dispel misconceptions, reduce stigma, and promote early detection and treatment-seeking behavior.

The involvement of B.Pharm and Pharm.D students added significant value to the initiative, highlighting interdisciplinary collaboration and leveraging expertise in pharmaceutical sciences. Their active participation not only showcased a dedication to societal welfare but also enriched the campaign with diverse perspectives and insights.

Conjunctivitis Awareness

Conjunctivitis is inflammation of the conjunctiva, the thin, clear tissue that lines the inner surface of the eyelid and covers the white part of the eye. There are several types of conjunctivitis:

1. **Viral Conjunctivitis:** Caused by viruses, such as those responsible for the common cold. It is highly contagious and can spread through contact with infected eye secretions.
2. **Bacterial Conjunctivitis:** Caused by bacteria, often resulting in a sticky discharge from the eye and crusting of the eyelids. It is also contagious and can spread through direct contact.
3. **Allergic Conjunctivitis:** Triggered by allergens like pollen, dust mites, or pet dander. It leads to itching, redness, and tearing of the eyes, often associated with other allergic symptoms like sneezing and nasal congestion.
4. **Irritant Conjunctivitis:** Caused by irritants such as smoke, chlorine in swimming pools, or chemicals. It can result in redness, burning, and watering of the eyes.

Precautions

1. **Practice good hygiene:** Wash your hands frequently with soap and water, especially after touching your eyes or face, and avoid rubbing your eyes.
2. **Avoid sharing personal items:** Do not share towels, pillows, or eye makeup with others, especially if you have conjunctivitis.
3. **Disinfect surfaces:** Clean commonly touched surfaces such as doorknobs, countertops, and shared electronic devices regularly, especially if someone in your household has conjunctivitis.
4. **Use protective eyewear:** Wear goggles or swim masks when swimming to protect your eyes from bacteria and irritants in the water.
5. **Follow proper contact lens care:** If you wear contact lenses, follow hygiene guidelines provided by your eye care professional, including proper cleaning, disinfection, and storage of lenses.

Following these precautions can help reduce the risk of contracting or spreading conjunctivitis.

How is it caused and what are the symptoms?

Causes

Conjunctivitis can be caused by various factors, including:

- Viruses
- Bacteria
- Allergens
- Irritants

These factors can lead to inflammation of the conjunctiva, resulting in conjunctivitis.

Symptoms

Common symptoms of conjunctivitis include:

- Redness of the eye
- Itching or irritation
- Watery eyes
- Discharge from the eye

If you experience any of these symptoms, it is important to seek medical attention for proper diagnosis and treatment.

Treatments

1. Viral conjunctivitis usually clears up on its own within a week or two without specific treatment. Cold compresses and artificial tears may help soothe discomfort.
2. Bacterial conjunctivitis may require antibiotic eye drops or ointment prescribed by a doctor.
3. Allergic conjunctivitis can be managed with antihistamine eye drops or oral medications to reduce symptoms.
4. Irritant conjunctivitis may improve by rinsing the eye with clean water or saline solution and avoiding the irritant.

It's important to consult a healthcare professional for proper diagnosis and treatment recommendations.
